SKILLS

- Programming in multiple languages
- Debugging code
- Data Structures and Algorithms
- Calculus and Linear Algebra
- Git experience
- Problem solving and analytical thinking
- Adaptability and self-discipline
- Communication and teamwork
- High Learning velocity

ABOUT ME

Final-year Computer Science student with a strong background in mathematics and a clear interest in artificial intelligence. Proficient in Java and Python, with experience in web technologies including HTML, CSS, and JavaScript. Recognised for academic excellence through multiple distinctions and Dean's Commendation. Actively tutors high-school learners in Mathematics and IT, demonstrating strong communication and leadership skills. Seeking internship and postgraduate opportunities to apply technical knowledge to real-world AI-driven solutions.
